WE WHO?

Our company was established in 1979 in Kastamonu, Turkey. The activities that it started as a small marble workshop in 1979

It has aimed to constantly improve itself in the ongoing history by adapting to the natural stone processing technologies they bring.

It has been involved in many projects in the marble and mining sector since 1979 in its region, and these projects have been completed as targeted and ensured quality and reliability in the sector. Being aware of the fact that the best investment comes from 'human' and quality comes from people, our company acts with the idea of "best investment quality" and carries out its work in this direction. Our company, which aims to carry its brand to the future, aims to modernize the understanding of marble business, to develop this understanding and to transfer it to future generations.

ABOUT US

In the Kastamonu region of our company, there are marble mines of high quality, known in the global market and having a high market share, in various colors. The products we produce have a high customer portfolio in the country and have been brought together with customers in many countries in the world market.

Our company takes firm steps forward to ensure quality and reliability and to be among the leading companies by keeping up with the developing marble and mining industry in the global market.
